

New Product

**1999-14 Twin Cam 106 cu. in. 1746cc Big Bore Kit
with 4 3/8" Stroke Crank**

Features

- Wiseco top end gasket kit
- Dedicated forging
- Optimized dome design
- Superfinished piston pin
- Horizontal slot pin oiling
- Pressure seal groove
- ArmorPlating™ Coated
- ArmorGlide® skirt coating
- Dedicated rings

Benefits

- Premium materials exceed OEM standards, producing the best sealing technology available.
- Light weight and superior strength
- Improved flame travel
- Reduced friction/scuff resistant
- Improved lubrication and better pin oiling, reduced friction
- Maximum ring seal
- More sustainable power, detonation resistance and eliminates ring microwelding
- Reduced friction
- Maximum compression and oil control

Complete VT Kit includes complete top end gasket kit, (2) pistons, (2) rings, (2) pins and (2) circlips. **K kit** includes (2) pistons, (2) rings, (2) pins and (2) circlips. **Replacement piston** includes piston, rings, pin, and circlips
